	New construction subject to Site Plan jurisdiction Amending a previously approved Site Plan Application Modification of existing non-residential properties (Change of Use Applications with no exterior modifications are exempt from Regulations)
Brief Description of Application	on:
Are any Variances required fro	om the Zoning Ordinance? If so, from what Sections & why?
Will Waivers be requested from	n the Site Plan Regulations? If so, from what Sections & why?

Please include 7 copies of all application material, which includes color copies of Site Plans

These regulations are to be used in conjunction with the requirements laid out in the Windham Planning Documents, including the Zoning Ordinance and the Site Plan Regulations.

These Design Standards are intended to provide regulations to developers and consultants to help visualize how their projects work with the goals and objectives of the development vision of the Town of Windham. They are also intended to help the Planning Board with the design evaluation process of each development and redevelopment proposal.

The overall goal of these Design Regulations is to eliminate or reduce the common characteristics of poorly planned and haphazard development and work towards maintaining the character and beauty of Windham into the future.

WAIVERS

Waivers to these Regulations may be granted by a vote of the Planning Board if the following conditions are met:

Section 400.1. A waiver request is submitted in writing, either as part of the initial Site Plan Application, or as soon thereafter as the applicant becomes aware that the proposal will require a waiver.

Section 400.2. The waiver request contains a detailed explanation of the reasons for the waiver, its satisfaction of the criteria for approval of the waiver, and how the objectives of the relevant section are otherwise being met. As part of the waiver request, an applicant shall indicate if any of the following circumstances exist:

- 400.2.1 The application is for an addition to, or modification of, an existing structure; or
- **400.2.2** The property and/or building has unique characteristics/features that make compliance with the Regulations difficult; or
- **400.2.3** The application proposes to restore, reuse, or preserve historic structures or culturally significant resources

Section 400.3 The Planning Board shall grant a waiver if (and only if) it determines that either of the following conditions exists:

- **400.3.1** Strict conformity with the Design Regulations would pose an unnecessary hardship to the applicant and a waiver would not be contrary to the spirit and intent of the regulations, or
- **400.3.2** Specific circumstances relative to the site plan or the conditions of the land indicate that a waiver will still properly carry out the spirit and intent of the regulations.

If waivers from the Design Review Regulations will be requested of the Planning Board, requests should be submitted as part of the Design Review Subcommittee Review process for the Subcommittees input and recommendations to the Planning Board.

Section #	Meets Regulation ¹	N/A	Waiver Requested
502 General Site P	lan Design Standar	ds	-
502.1 GCD Buildings to Roadway Setback
